Scholarship Monitoring Committee

(Academic Year 2025 - 2026)

The Scholarship Monitoring Committee of the college is dedicated to ensuring timely dissemination of information, effective coordination, and smooth processing of scholarship schemes offered by the Government of India and Government of Maharashtra. The committee actively monitors the application and disbursement process on platforms such as the MahaDBT portal, assists students in resolving documentation or eligibility issues, and liaises with concerned departments to ensure transparency and accountability. It also takes proactive steps to inform students about important deadlines and updates through notices, digital platforms, and mentoring support.
